

I used to work in the kitchen at Spur before getting this position.

COVID forced our restaurant to close, so I applied. I was thankful for the opportunity to earn some money.

I am a widow and after my husband died I was in a lot of pain.

This job helped me get back on my feet.

I wanted to help

feed the

students at my

child's school.

Views from

Volunteer Food Handlers

I desired to contribute to my community.

I needed the money and the opportunity to contribute to the school.

I needed a job because I have been unemployed for a long time.

We need decent jobs for volunteer food handlers in South Africa's

National School Nutrition Programme.
